

## MGI adopts GCP as a catalyst in Digital Transformation Journey

Infrastructure Readiness for SAP S/4HANA and SoH Landscapes  
Migration of Two SAP Landscapes from another Cloud Provider to  
GCP Setup of Monitoring and Management Frameworks

### The challenge

Limited Visibility into Infrastructure on the erstwhile Hosting Platform.  
Dependency on Third-Parties for basic infrastructure tasks. Limited  
Scalability of Platform. Modern Infrastructure Platform was a  
prerequisite for Digital Transformation Initiatives. Large Downtime for  
Cloud Migration was not possible due to 24x7x365 Business  
Operations.

### The solution

SAP S/4HANA on GCP SAP Business Suite on HANA on GCP  
(Second SAP Landscape) Connectivity from Various Site, Plant and  
Depot Locations using redundant networking and auto-failover  
capabilities. HANA Backup using GCP Backint API Stackdriver  
Monitoring Integration with various SAP and Non-SAP Data Sources

### The results

Seamless Migration to GCP with only 47 Minutes of Downtime.  
Complete Managed Infrastructure Platform with Customer Visibility.  
Zero Migration Issues Reported during Project Phase and since  
Go-Live

“ MGI has been adopting the best of technology to ensure seamless benefits to the business which was one of the deciding factors in moving to GCP. Considering previous migrations, our biggest worry was downtime for our 1200 Users and Together with InfraBeat, we had we had a seamless migration with only 47 minutes of downtime & we switched over without any challenges and with enhanced performance. ”

Asadul Hashem, Senior General Manager - IT
